Corner Room, Odd-Fellows' Hall. TPEC. P. HAUGHEY, Pres't. E. E. REXPORD, CAN

DEPOSITS STILL GROWING

Clearings Far Exceed Those of 1891, and Promise to Further Increase.

The Grain Market Shows No Unusual Features, Wheat Being Weak, Corn Quiet and Oats Dull-Quotations on General Produce.

MONEY AND STOCKS.

Clearings Getting Larger and Will Be Still Greater Next Week-Increasing Deposits. The clearings yesterday rose far above the figures of the corresponding period in 1891. Part of this mcrease is probably due to tax-paying, which is getting larger as the days of assessing the penalty ap proaches. Next week the clearings, for this reason, will doubtless be much increased. Yesterday's clearings of the six associated banks amounted to \$645,231.50; balances, \$44,157,23. At this date in 1891

QUOTATIONS AT NEW YORK. At New York, yesterday, money on cal was easy at 11/2 to 2 per cent., the last loan being made at 2, closing offered at 2.

the clearings were \$491,812.82; balances,

\$56,036.41. Deposits are also better.

Prime mercantile paper, 426 per cent. Sterling exchange was quiet but steady at \$4.85 to for sixty-day tills and \$4.87 tor demand.

The total sales of stocks were 203,051 shares, including the following: Atchison, 11.060; Erie, 4.200; Northwestern, 4,056; Reading, 72,450; Richmond & West Point, 19,645; St. Paul. 9,560; Western Union, 4,869. The transactions in the stock market have

proved conclusively that interest in the speculation has been reduced to the minimum. The only late trading was marked by the awakening of the traders and an attack on Reading, which depressed that stock about 1 per cent., carrying the rest of the list, as a rule, slightly below the opening prices, while Wheeling & Lake Erie was especially weak, falling 1% before the decline was checked. The raid was accompanied by the only approach to activity seen during the day, but it soon died away, and though there was no recovery in prices, the market closed dull and heavy at about the lowest prices reached. The final changes are small fractional losses, but Wheeling & Lake Erie is down 1%, Reading 14 and Northwestern, which was one of the weak stocks in the afternoon, 1 per

Railroad bonds were not so lively, and while the transactions in the leading active issues were largely curtailed, the number of issues traded in was much smaller than usual. The transactions reached only \$1,170,000, of which Richmond & West Point fives contributed \$244,000. There were no important changes in quotations in any part of the list, and the bond list failed to respond to the late raid on stocks, so that prices are practically unchanged for the day. Government bonds were dull and easier.

State bonds were dull and steady. Closing quotations were: Four per cent. reg116 |Louis. & Nash 7419 Four per ct. coup...117 L. & New Albany... 25 Pacific 6s of '95 .- 109 Missouri Pacific.... 6112 395, N. J. TAX-RECEIVER CAUSES A RIOT. Closed His Office While Several Hundred Republican Voters Were in Waiting.

WILMINGTON, Del., March 18 .- There was a lively row in the office of the receiver of taxes, John T. Hickey, late yesterday afternoon. Several hundred voters, mostly negroes, who had been waiting all afternoon to pay their taxes, grew excited when Deputy Collector Finck closed his books at 4 o'clock and informed the multiuntil Monday. The voters, mostly Repubheans, said the collector willfully refused the taxes tendered him. The charge was denied. When Collector Finck attempted to withdraw, however, the frenzied voters armed themselves with base-ball bats, and, with blood in their eyes, started in pursuit. The police had to be called in to quell the disturbance, but not until a dozen blows were exchanged and a riot had started. During the riot ex-Secretary Mitchell was knocked down with a baseball bat and seriously injured. Other persons were cut and bruised. Several arrests were made.

PENSIONS FOR VETERANS.

Residents of Indiana and Illinois Whose Claims Have Been Allowed. Pensions have been granted the following-named Indianians:

Original-Duane D. Scott. William Harding, Joseph Stone, Andrew B. Conrad, Samuel Day, Shadrack Tolbert, John W. Anderson, Charles Cadwell, John Harvey Bolander, William H. Baxter, Christian Blunchardt, Elwin W. Case, Eli Wells, Silas U. Huxley, Frederick Tykie, William A. Dusenbery, Langdon W. Flanders, John A. Henry. Additional-Reed Bruner, Lafayette Rope, Wimam Holle, Daniel W. Rose, William H. Mills, John A. Alexander, George F. Smith, Philip McArdle, Yancy Walden, George W. Banners, Eleazor Biggs, John Ardis, Lemuel Doriot, John R. Crawford, Adam Foust, Restoration and reissue-Francis Schuler. Renewal and increase-John Hendren. Increase-H. Jacob Miller, Henry Bibb, Jas. B. Arnett. Reissue-Martin H. Liter, Wm. Parrish, Chas. W. Thompson, R. R. Moring, Jacob Ketzee, Franklin Light, Empson Ley, Jos. V. Shipp, Henry H. Polson, Wm. Schwartz, John Denn, L. Peter Voris, John Chenoweth. Reissne and increase-Jas. D. Strange. Original widows, etc.-Annie E. Ebaugh, minor of Geo. W. Willfams, Clarissa Roper (mother), Jane Runyan, Susan O'Neill, Charity Dunkin, Polly Moring, Ruhanna J. Phillips, Nancy Mastin, Mary A. Paight, Frances Cole, Eliza J. Burke.

Bound to Have Free Rides. Boston, March 18.-The first result of the passage of the anti-free-pass bill was shown in a bill favorably reported by the finance committee of the lower branch of the Legislature which recommends the appropriation of \$18,700 for traveling ex-

PARDRIDGE CAN'T HELP IT

Or at Least He Says Wheat Will Have to Decline if It Is Feeling that Way.

Chicago Forecasters Giving Out that It Will Fall to 70c Before the Bottom Is Reached -Wide Fluctuations Testerday.

TRADING AT CHICAGO.

Corn Was Disposed to Be Firm, but Only for a Short Time. CHICAGO, March 18 .- It was nip and tuck to-day on the Board of Trade with the crop damage reports and the contradictions. Opinions differed widely as to the outlook. Some of the solid speculators, who have not held the opinion that wheat was likely to get into the slough in which cotton is at present floundering, were buyers on a break which inaugurated the session, but there were others who did think that wheat was getting into a cottony condition. The cables were again depressing to holders of wheat, in obedience to, it was said, dictation from this side, but the crowd took less notice of the weak cables than of the continuation of coid weather over the winter wheat country at home. There were purchasers of May wheat at the opening at from 84%c to 814c with one of two transactions at 84%c, a few seconds later. Pardridge commenced selling and N. B. Ream took a hand on the same side, and, from being inclined to favor a moderate reaction, the scalpers turned in a body to the selling side and kept putting it out until, after about an hour and a half of such work, it was down to 834c. The news which followed the early dispatches was in favor of lower prices. First came the report of the receipts at Minneapolis and Duluth-624 cars, against 242 cars on Friday of last week. Then a warmer weather prediction from the Signal Service Bureau, and, upon the same authority, the statement in an answer to an inquiry, that the winter-wheat belt. with the exception of Illinois and Nebraska, as all snow covered. The knockdown blow issued from the seaboard, from whence came the announcement that no wheat had been cleared yesterday from New York, Boston or New Orleans. New York messages said 600,000 bushels of wheat now loaded ready to clear, but the bears here were in the humor of saying, "we shall believe that when we see it," and brushed the statement aside. Bullish news was confined to reports of crop damage. A member of an influential house was heard to express the opinion that wheat at 84c was a safe sale for 14c per bushel profit, and that it would even then, at 70c, look as heavy as cotton was recently at 7c. It is only now that the bears are plucking up courage to announce themselves, and they no longer pat Pard-ridge patronizingly on the back. The latter took the decline quietly, and said he did not feel like doing anything to stop it. Without any perceptible cause beyond the uneasiness of those in the crowd who had sold wheat short at under S4c, there was a sudden rally of le per bushel from the lowest price named above. Some New

York messages reported continental cables closing steadier at a slight improvement, and there was a repeti-tion of yesterday's buying orders from people in the country, who reported injury to the wheat from the recent freezing weather. Ream, Linn, Roach, George T. Smith and many more of the best speculators on the board appeared to think that after wheat had broken below 84c, the bottom of a 35c decline, it was not good policy to be found fighting for a further 14c decline, but on the contrary found buying wheat and the price began advancing under such buying and closed at \$5c, about 12c higher than yesterday. Corn was rather firm early, but soon began to sympathize with the weakness in wheat. There was not much in the way of news. The trade was slow as a rule, and

while there was some disposition to cover early in the session on the temporary strength in wheat, bearish sentment soon got the as ascendency and weakness ruled for the time. May corn opened at 38%c, sold at 38%c, but then broke to 384c, reacted to 384c and at 12 o'clock was 384c. The market strengthened toward the close, chiefly in sympathy with wheat, May touching 39c, and at the close was 38%c, a shade higher than yesterday's final figures. Oats were quiet. May sold early at 28%c.

broke to 27%c, reacted some, but at 12 o'clock was 284c. The market grew firmer after the noon bour, influenced by corn and wheat. May sold to 28% at the close. The speculative market for provisions opened steady at about the closing prices of yesterday. There were only a few trades at and near the top figures, when the mar-ket for pork broke badly, selling down to the lowest point of the season for May delivery. Live nogs were lower; and to add to the weakness there was free liquidation by the longs and heavy hammering by the shorts. Lard and ribs were fairly steady. May pork sold early at \$10.224, fell to \$10, then back to \$10.124, and at 12 o'clock was \$10.124. May lard sold from 6.274c to 6.224c, and May ribs from 5.574c to 5,50c. During the last hour the market showed a decided improvement on free covering by tude that he would receive no more taxes shorts on the decline and the firmer tone in the grain pits. May pork reacted to \$10,1712 and lard to 6,274c, closing a fraction under these figures.

Estimated receipts for to-morrow are: Wheat, 158 cars; corn, 410 cars; oats, 180 cars; hogs, 14,000. The leading futures ranged as follows:

shipments, none, Lambs scarce. Common

to choice. \$107. Another Alice Mitchell Case at Memphia. MEMPHIS, Tenn., March 18.-A case simi-lar to the infatuation of Alice Mitchell for Freds Ward is that of Marie Phillips, and Minnie Hubbard, each seventeen years old. On Sunday the two girls disappeared and were not found until yesterday. Miss Phillips on her return, said that she and Minnie had been together. She told her mother that she loved Minnie and would rather be dead than separated from her. She said that Minnte was the only person she could marry, and this she intended to do. Miss Phillips is a fine looking girl and has been carefully educated. It was agreed to-day between the parents of the two girls to separate them, and when Miss Phillips heard of this the was overcome with grief.

Alex. Hamilton's Thirteen Trees to lie Sol NEW YORK, March 18 .- A place of pilgrimage is to be obliterated. The thirteen trees planted by Alexander Hamilton as symbolic of the thirteen original States of the Union are to fall under the auctioneer's hammer at the Real-estate Exchange next Tuesday, at the sale of the Amos Cotting estate. They stand on that portion of the old "Hamilton grange" that is bounded by Amsterdam and Convent avenues and Onehundred-and-forty-record and One-hundred-and-forty-third streets. Hamilton's old residence, presented by Mr. Cotting to St. Luke's Protestant Episcopal Church, was moved to the block below, and is used as a rectory.

DUN & CO.'S WEEKLY REVIEW

Dem and Both in the South and West for All Sorts of Goods Is Picking Up.

Dry Goods Show the Best Front, Manufacturers Having All the Orders They Can Ressonably Expect-Coal and Iron Dull.

NEW YORK, March 18 -R. G. Dun & Co.'s Weekly Review of Trade will say: Storms, bad weather and bad roads have much retarded trade during the past week, reducing the movement of grain and curtailing retail trade in many cities, but nevertheless reports indicate, on the whole, an improvement in the distribution of goods, and a fairly sustained demand, in some branches increasing, for manufactured products. There is no trouble anywhere about money, even at the South, markets being fairly supplied, with a light, but rather better demand, while at the West s more active demand is still met by ample supply. While imports of merchandise show a large increase over last year-for half of March a matter of 10 per cent .there also appears an increase in domestic exports, for two weeks of about 6 per cent. But vast supplies of some great staples have produced phenomenally low prices during the past week. The low prices cause nota little disheartenment in some branches of trade, although the movement of prod-

ucts continues active. Reports from interior cities are generally more encouraging. At Boston a steady increase is seen in the dry-goods trade. Shipments of boots and shoes slightly exceed those of last year for the week. At Philadelphia excellent distribution of dry goods is seen. At Pittsburg reports are of a poor demand for manufactured iron, but good trade in glass. At Cleveland trade improves and exceeds last year's, though pig-iron and ore are dull. At Cincinnati the shoe manufacture is busy, but a strike has stopped the harness and saddlery business. At Chicago excellent trade is seen in dry goods and shoes, though the clothing trade falls behind on account of the weather, but for the year exceeds that of last year. Receipts of wheat are three times, of barley and dressed beef twice that of last year's and an increase of two-thirds is seen in flour, a third in rye and cattle and some increase in butter, with slight decrease in hides and wool and large decrease in hogs, cured meats and lard.

At Milwaukee jobbing trade equals last year's in spite of bad roads, and at Omaha Paul and Minneapolis jobbing trade was never so active for the season, though wheat receipts are reduced. At Kansas City trade is fairly satisfactory, and cattle receipts Leavy at lower prices. At St. Louis wholesale distribution in all lines much exceeds last year's, and collections are unusually easy, coun-

try merchants buying not only more goods, but better qualities. At Louisville weather retards, but trade at Montgomery is fair; at Savannah good, with bright prospects, and at New Orleans slightly improved, sugar being strong, though cotton declines with heavy receipts. Speculation in breadstuffs has been depressed by the official report of wheat in farmers' hands, and on moderate sales wheat has declined 3%c, corn 34c and oate 2c. In pork products no change appears, nor in coffee, but oil is 214c lower. In cot ton a decline to 6% c has been followed by a

recovery to 6.81c, but receipts and exports for the week both exceed last year's. in the great manufactures there is a general activity, especially in cottons, though print-cloths and prints move less rapidly, but the demand for export goods is larger. In woolens the makers of overcoatings and cloaking are bappy. The movement of dress-goods is unusual for the season, while a stronger demand is seen for the higher worsteds, and a singular concentration of men's wear demand in cheviots. In knit goods the market favors buyers, but carpets are steady. Sales of pig-iron at low figures continue, some makers even contracting for prices for the whole of this year. The demand for bar iron is dull, but for plates is a little better. Prices are, however, demoralized. The market for copper seems to indicate some agreement and is stronger, but coal is dull.

The business failures occurring throughout the country during the last seven days number 240, as compared with a total of 25 last week. For the corresponding week of last year the figures were 245.

Bicycles sell for \$135 with 1: Cushion Tires, for \$150 with Dunlap Pneumatic Tires. You'get full value, too!
